EXPERIENCE

Alpaca Markets April 2022 - October 2022
Software Engineer - Developer Experience San Mateo, CA/U.S. (Remote)

- Engineered v2 of the official Alpaca **Python** SDK to allow developers to connect to the Broker API and build investment services such as broker-dealers, neobanks, and RIA's which led to a 35% increase in the number of outstanding live applications
- Spearheaded the creation of a GitHub repository with 10+ **Jupyter** research notebooks with step-by-step technical guides on how to use the v2 Alpaca Python SDK to build live algorithmic trading bots leading to 10,000+ new developer sign-ups

Bloom (YCS21) October 2021 - January 2022
Software Engineer - Full Stack San Francisco, CA/U.S. (Remote)

- Singlehandedly designed, developed, and launched a virtual stock market game in 6 weeks using **Next.js**, **Node.js**, and **Firebase** for 100,000+ teenage users to interactively learn about and test long-term investing strategies in a risk-free manner
- Implemented the functionality to make individual accounts and create multiplayer games with **TypeScript** which added 15,000+ platform users and led to a 45% increase in the investing confidence of newly converted brokerage account customers

Knowt January 2020 - October 2021
Software Engineer - Frontend Lewes, DA/U.S. (Remote)

- Achieved a 64% decrease in bounce rate from the web app over 6 months by using **Next.js** to develop and A/B test four unique design iterations, each focused on showcasing the product's value proposition and strategically timing sign-up prompts
- Doubled the SEO Lighthouse score which then increased new web app traffic from Google by ~15,000 visits/month by adding mobile responsiveness, fixing performance bugs, and developing significant improvements to website speed with **JavaScript**

FinX July 2020 - September 2020
Software Engineer - Full Stack Virginia Beach, VA/U.S. (Remote)

- Increased 1-month user retention rate by 32% using **React**, **Tailwind CSS**, and **Node.js** to build new features such as dynamic stock charting analysis similar to TradingView and an interactive chatbot to help users learn about financial literacy
- Developed a real-time news sentiment analysis dashboard and per-stock daily polls using **Flask**, **NLTK**, and **React Native**, introducing a gamified rewards system that engaged 65+% of 10,000+ daily active users and increased revenue by 5-figures
